FMIPL

FLANGETECH MANUFACTURING INDUSTRIES PVT. LTD.

We Can What Very Few Can!

# Flangetech Company Profile

Manufacturer of standard and customised flanges from 95 mm to 2000 mm OD in MS, CS, SS and BQ grades, made to codes and customer drawings since 2018.

# ABOUT FLANGETECH

***Established in 2018, with a team that brings over 100 years of combined experience in flange manufacturing.***

We manufacture a comprehensive range of flanges including Slip On, Blind, Threaded, Socket Weld, Weld Neck, Lap Joint and RTJ, and we specialise in non-standard, customised flanges and large-diameter fabricated rings and flanges.

With heavy machinery and equipment, precision measuring instruments and rigorous quality control, we deliver flanges that meet our customers' highest quality expectations.

## Industries we serve

- Process Industry
- Infrastructure
- Marine & Shipbuilding
- Equipment Manufacturing
- Automobile
- EPCs

# OUR VISION & MISSION

*Precision engineering, continuous innovation and sustainable manufacturing.*

### OUR MISSION

To deliver premium-quality flanges and engineered flange solutions that help customers operate efficiently and reliably. We are committed to precision engineering, continuous innovation and sustainable manufacturing practices.

### OUR VISION

***To be a world-class flange manufacturer, recognised for engineering excellence, technical innovation and an unwavering commitment to quality products and customer satisfaction. We aspire to set industry benchmarks for quality and service.***

# MANUFACTURING INFRASTRUCTURE

*Heavy machinery, equipment and precision instruments for world-class flange manufacturing.*

### Machinery for Flanges

Heavy-duty lathes including a CNC lathe, pillar drills, radial drills, core cutter, magnetic drill and more, in different capacities.

### Cutting Equipment

Pantograph profile cutting machine, pug cutting machines and plasma cutting for precise material processing.

### Material Handling

Electric hoists, chain pulley blocks and magnetic lifters for efficient material movement and management.

### Precision Instruments

Vernier callipers, micrometers, flatness testers, surface finish checkers and precision gauges for quality compliance.

### Supporting Equipment

Number punching machine, 150-ton H-frame press, compressors, fixtures and gauges.

### Quality Assurance

Complete measurement and third-party material testing capability, with full traceability and documentation.

## Planning a visit or an audit?

We welcome customer inspections and third-party audits at our works in Vasai.

# OUR PRODUCTS

*Manufactured to precision for every critical application, including non-standard and customised flanges.*

01

## *Large Diameter Fabricated Flanges*

Up to 2000 mm OD

Fabricated rings and flanges for large-bore piping, vessels and structures.

**SIZE RANGE**

**95 mm to 2000 mm OD**

**MATERIALS**

**MS, CS, SS and BQ grades**

**STANDARD TYPES**

Slip On, Blind, Threaded, Socket Weld, Weld Neck, Lap Joint and RTJ flanges, to various codes.

# FLANGES, BLINDS & RINGS

02

### *Flanges as per Customer Specifications*

Customised and non-standard flanges made to your drawings and application needs.

03

### *Lap Joint Flanges*

Lap joint flanges in MS, CS and SS grades, machined to the required standard.

04

### *Spectacle Blind Flanges*

Spectacle blinds, spades and spacers for positive isolation of pipelines.

05

### *Non-Standard Rings*

Rings and profile-cut components to customer dimensions.

06

### *SS Lined Flanges*

Carbon steel flanges with stainless steel lining for corrosive services.

**Need a non-standard flange?**

**Share your drawing, grade and quantity.**

Enquiries

### *sales@flangetech.in*

+91 96196 03935 (call or WhatsApp). We manufacture to your specification.

# FINISHES & QUALITY

07

## Hot Dip Galvanised Flanges

Galvanised flanges for corrosion protection in outdoor and marine environments.

08

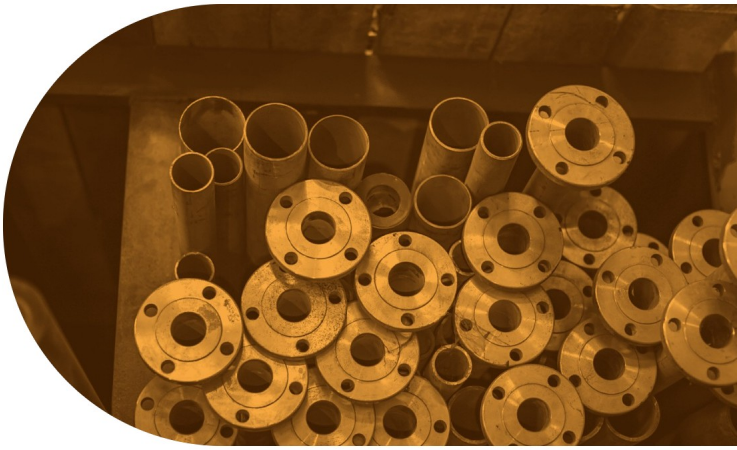

## Painted Flanges

Flanges supplied with primer or paint finish as specified, ready for site installation.

09

## Raised Face Flanges

Raised face flanges machined to the specified finish and supplied painted or bare.

MEASURED, TESTED, DOCUMENTED

***In-house dimensional inspection, material testing through NABL-approved laboratories, and full traceability from raw material to finished flange, with test certificates and inspection reports.***

## From enquiry to dispatch

Our team ensures smooth execution from enquiry to dispatch of materials, with packing suited to domestic and export shipments.
